WITH SHARP AND ROUNDED EDGES

Alex Kaczun, accomplished type designer and founder of Type Innovations, has over two decades of experience in typography, graphic design, desktop publishing and web development. Much of Alex's career was spent at the premier type foundry, Linotype-Hell, where he was the principal type designer and worked on many font projects aimed at modernizing the Linotype Library.

Abcd

Ekeras v2 is an inline font not intended for text use. Available in Regular—plans for an Italic; along with regular and italic small capitals with old style figures.

Ekeras v2 Inline

14/16 Ekeras v2 Inline

Ekeras v2 is a futuristic, techno-looking and expressive typeface with an appearance of metal-like parts with some very sharp edges. This attractive display comes in roman with lower case and lining figures. The font will soon be available with true-drawn slant italics.

20/22 Ekeras v2 Inline

Ekeras v2 is a new techno-looking typeface with an appearance of metal like parts with some very sharp edges. This attractive display comes in roman with lower case and lining figures. The
